Genesis Global Technologies Opens Office to Hurricane Charley Victims.

Ft. Myers, Florida, January 28, 2005: Genesis Global Technologies has opened their Fort Myers office to victims of hurricane Charley for use as an emergency communications post.

Individuals and displaced businesses are both invited to use Genesis Global Technologies office to communicate with family, friends and business associates via sending and receiving email or telephone.

Additionally, for those unable to get to our office, our staff would like to help with the communications effort by relaying messages to friends and family on behalf of people without phone service. Simply pass on the names, phone number and messages to us by calling, emailing or faxing them in, and we will relay the messages.

Contact Genesis Global Technologies for directions.

About Genesis Global Technologies

Genesis Global Technologies, a think tank of prodigy thinkers, developers and “out of the box” problem solvers, was founded in 1994. Genesis Global Technologies specializes in helping companies use technology to improve their efficiency, productivity and profitability – using technology as the tool. Genesis Global Technologies is a wholly-owned subsidiary of International Business Services of America, Inc.
