Genesis Global Technologies Awards Second Technology Best Practices Award to Palmira Golf & Country Club.

Ft. Myers, Florida – May 18, 2004 – Genesis Global Technologies, a Southwest Florida technology leader has just awarded Palmira Golf & Country Club, a Ronto Group community, for “Best Sales & Productivity Practices”.

This award recognizes Palmira Golf & Country Club as a progressive company who has used brand new technology to improve their business in a creative solution. The solution came in the form of Developers Advantage -- a sales automation tool exclusively for Property Developers that is designed to do two things: make the sales process easier and smarter.

Mona Hilton, President of Genesis Global Technologies stated, "Palmira Golf & Country Club is progressive and is quick to find ways to improve the way they deliver their services to their clients. This sales automation solution represents their willingness to 'think outside the box' in perfecting their sales process. We are proud to be a part of their solution."

Brenda Ericson, Palmira Golf & Country Club said, "We can't stress enough Genesis' amazing customer support. It is their most outstanding company feature that separates them from the rest – especially in the sometimes scary world of computers and new software programs."

The Palmira Golf & Country Club staff will be presented with a plaque and lunch for the entire office in June.

About Genesis Global Technologies

Genesis Global Technologies, a think tank of prodigy thinkers, developers and “out of the box” problem solvers, was founded in 1994. Genesis Global Technologies specializes in helping companies use technology to improve their efficiency, productivity and profitability – using technology as the tool. Genesis Global Technologies is a wholly-owned subsidiary of International Business Services of America, Inc.
