Genesis Global Technologies Named to Top 500 Partners by Microsoft

Ft. Myers, Florida – January 10, 2005 – Genesis Global Technologies., a Southwest Florida technology leader announced today that it has been named to “**Top 500 Managed Partners**” by Microsoft. This award recognizes Genesis Global Technologies for technology excellence and "best of class" solutions" among Microsoft's approximately 30,000 partners worldwide.

“As I reviewed my Partner list, it became apparent to me that Genesis Global Technologies is a Partner with whom Microsoft would like to engage on a deeper level. The variety of activities in which they have engaged clearly demonstrates their commitment”, explained Ezra Scott.

How does this benefit other businesses in Southwest Florida? “Managed Partners (like Genesis) have access to a variety of **exclusive** resources and early product information. Resources include priority access to a support team of Microsoft certified systems engineers, non-disclosure evaluation of new products and technologies, as well as planning tools and events to keep up to speed on the latest Microsoft product developments and future direction,” explained Rosa Rosa Garcia, General Manager – Microsoft Certified Solution Provider Program.

Mona Hilton, President of Genesis Global Technologies stated, "We are pleased to have our accomplishments recognized by the market leader in technology. Our business model is based on providing the highest level of technical expertise and service. This has dovetailed nicely with Microsoft's commitment, giving us recognition and special access to Microsoft's resources. Our exceptional growth indicates our strong customer commitment and business improving solutions."

About Genesis Global Technologies

Genesis Global Technologies, a full-service Microsoft Certified Partner and Microsoft Channel Partner founded in 1994, specializes in helping companies use technology to improve their efficiency, productivity and profitability. Genesis Global Technologies practice areas include network design and implementation, software and database development, web based commerce, business productivity tools, network management and disaster recovery. The company's technical consulting staff is comprised entirely of senior Microsoft certified networking engineers and Microsoft certified programmers and developers. The best-of-class products and services Genesis delivers result from the company's business acumen and professional service delivery methodology. Genesis Global Technologies is a wholly-owned subsidiary of International Business Services of America, Inc.
